Dear Ms. Mathews,

I am dropping you a line with more information concerning my continuing problems with my water system that PBT Comm had broke while digging on my property while attempting to install a fiber optic cable. After PBT had a well contractor replace my relay box to try and stop my pump breaker to stop tripping, I still as of the time of this writing Sun. May 17, 2009 have problems. I have a house full of company and again no water. I will again, as soon as I am done writing this letter try and contact Mr. Kelly Green, PBT's contractor on this matter.

With this being said, I wish to report to the Commission, that I am in no way satisfied with the repairs done to my utilities by PBT comm. I still would like a hearing on this matter. I still request that PBT Comm restore my property to the way it was prior to them digging. I have pictures, witnesses, and documantion to support my complaint.

Thanks again for your help on this matter,  
Richard N. Hatalski
